

## RELYABLE TRIAL

**RELY**-ABLE Long Term Multi-center Extension of Dabigatran Treatment in Patients With Atrial Fibrillation Who Completed the **RE-LY** Trial and a Cluster Randomised Trial to Assess the Effect of a Knowledge Translation Intervention on Patient

### Study Phase III

#### Purpose

The purposes of this study are:

1. To evaluate the long-term safety of dabigatran etexilate
2. To assess the effect of a knowledge translation intervention on patient outcomes

The study population will include those who meet the following inclusion/exclusion criteria, some of which are:

#### **Inclusion Criteria:**

Participation in RE-LY, requires long term anticoagulation, provides written informed consent

#### **Exclusion criteria:**

Permanent discontinuation of dabigatran during RE-LY
